Technology during World War I Wikipedia

March 17th, 2019 - Technology during World War I 1914â€”1918 reflected a trend toward industrialism and the application of mass production methods to weapons and to the technology of warfare in general This trend began at least fifty years prior to World War I during the American Civil War of 1861â€”1865 and continued through many smaller conflicts in which soldiers and strategists tested new weapons

Military aviation Wikipedia

March 17th, 2019 - Military aviation is the use of military aircraft and other flying machines for the purposes of conducting or enabling aerial warfare including national airlift capacity to provide logistical supply to forces stationed in a theater or along a front Airpower includes the national means of conducting such warfare including the intersection of transport and war craft
